From the Principal

School overview

Yugumbir State School has been proudly serving the community of Regents Park since 1986, focusing on the needs of individual students and emphasising enhanced student outcomes by providing a warm, caring environment with strong links between our school and the local community. Our Prep to Year 6 curriculum is based on the Australian Curriculum, with the inclusion of gifted and talented, intervention and special education support programs. Our pre-eminent focus is on literacy and numeracy with strong programs in the areas of Music and Physical Education. Our chaplain is an integral part of our school community, appropriately addressing the religious, spiritual and/or ethical needs of our students as required. We are a Positive Behaviour for Learning school, with proactive social skills, values education and anti-bullying programs. The value of the parental role is recognised at Yugumbir State School where our parents are actively involved in the school in many ways and, with our Parents and Citizens Association, provide assistance, advice and resources critical to our success.

Curriculum implementation

The P–12 curriculum, assessment and reporting framework specifies the curriculum, assessment and reporting requirements for all Queensland state schools' principals and staff delivering the curriculum from Prep to Year 12. Further information on school implementation of the framework is available at <https://education.qld.gov.au/curriculum/stages-of-schooling/p-12>.

Extra-curricular activities

Queensland state schools provide a wide range of subjects and extra curricula activities such as sport, art, music and school camps. Further information can be found here <https://www.qld.gov.au/education/schools/information/programs>.

How information and communication technologies are used to assist learning

Information and communication technologies (ICT) are an important part of contemporary schooling. The Australian Curriculum includes ICTs as a general capability across all learning areas, as well as Digital Technologies as a specific learning area. Further information on models used by schools to assist learning is available at <https://education.qld.gov.au/parents-and-carers/school-information/student-ict-device-programs/one-to-one-models>.

Social climate

Overview

Yugumbir State School has made a commitment to implementing the Positive Behaviour for Learning (PBL) framework and therefore we are proactive in acknowledging positive and productive student behaviours. The school is committed to providing a safe, respectful and disciplined learning environment for all students. This is achieved through a consistent universal approach, including:

- a specific focus on teaching student expectations and standards for acceptable behaviour from a matrix, providing a Slide Show and Lesson Plans for the Rule of the Fortnight developed by the PBL team
- rewarding and acknowledging students who follow the school's expectations via a school wide rewards system, coupons rewards, Student of the Week Awards & Postcards
- ensuring staff are skilled in behaviour and classroom management strategies

Parent and community engagement

Our approach to engaging with parents and the community is aligned to the departments Parent and community engagement framework. The framework helps students, schools, parents and the community to work together to maximise student learning and wellbeing. Research shows parent and community engagement that is effectively focused on student learning can deliver powerful outcomes. Further information is available at <https://education.qld.gov.au/parents-and-carers/community-engagement>

Respectful relationships education programs

The *Respectful relationships education program* — an initiative of the Queensland Government — is part of a broader multi-departmental commitment to ending domestic and family violence. By implementing the Respectful relationships education program, Yugumbir State School will give students opportunities for social and emotional learning in self-awareness, self-management, social awareness, relationships, ethics, values, social norms, stereotypes, human rights, risk and responsible decision-making. The Prep to Year 6 programs are aligned to the Australian Curriculum: Health and Physical Education and will be delivered through this learning area. Specialised resources for schools and teachers are used which include program guidelines, teaching overviews and resources for each year level.

A variety of programs are offered year round to support students and families. These are facilitated by school staff as well as relevant external agencies. Some of these programs include: YMCA breakfast club, Good Start program, Life Education, Zones of Regulation, Star Fish and PCYC programs on resilience, confidence and perseverance and a school horticulture program that offers targeted students an opportunity to engage an outdoor practical program to enhance engagement in school. These programs promote respectful and healthy relationships, personal safety, health and wellbeing, identifying and responding to abuse and violence which are all developing students' knowledge and skills to resolve conflict without violence and to recognise, react and report when they, or others, are unsafe.

Environmental footprint

Reducing this school's environmental footprint

Environmental education has been a feature of Queensland schools for more than 30 years. In many schools it has been creatively and proactively incorporated into the curriculum in each phase of learning, and is also reflected in the school's facilities and in the actions of its principals, teachers and students.

Table 7: Environmental footprint indicators for this school

Utility category	2016–2017	2017–2018	2018–2019
Electricity (kWh)	238,433	265,527	274,889
Water (kL)	15,754	20,011	21,106

Note:

Consumption data is compiled from sources including ERM, Ergon, CS Energy reports and utilities data entered into OneSchool* by schools. The data provides an indication of the consumption trend in each of the utility categories which impact on this school's environmental footprint.

*OneSchool is the department's comprehensive software suite that schools use to run safe, secure, sustainable and consistent reporting and administrative processes.
